

Kingston DataTraveler 2.0 Hi-Speed USB Memory

Products: KUSBHS2/128, KUSBHS2/256, KUSBHS2/512, KUSBHS2/1024

100% tested | five-year warranty | free technical support

Transfer and carry huge files faster and more easily than ever.

Ultra-high performance, wide application support, data security and Kingston® quality have been combined in a Hi-Speed USB 2.0-compliant flash drive. Kingston's pocket-sized DataTraveler™ 2.0 allows power-users to take advantage of a computer's Hi-Speed USB port to download and carry larger files wherever they go.

With lightning-fast data transfer rates up to 480 Mb/sec., the DataTraveler 2.0 is the speediest USB flash drive in Kingston's family of products. This rugged, lightweight device is convenient to use – whether you're on the road or in the office, you can quickly grab presentations, MP3s, digital pictures and more. All you have to do is click and drag, and you're on your way.

The DataTraveler 2.0 works with the vast majority of computers incorporating the Hi-Speed USB 2.0 interface. So whether you want to take your files cross-country, cross-town or cross-platform, they're right at your fingertips. And with TravelerSafe, Kingston's custom security software, password-protected partitions keep the most sensitive data secure.

But the most important features the DataTraveler 2.0 comes with are Kingston's legendary quality, service and support. Visit www.kingston.com/product/dmhomepage for the latest information on the DataTraveler product family and other Kingston digital media products.
