

Kingston CompactFlash Elite Pro

lifetime warranty | free technical support

Professional-grade memory cards for the most demanding imaging applications

Imaging pros expect a lot from their equipment and can't afford to have a component limit their productivity or creativity. That's where Kingston's CompactFlash® Elite Pro™ memory cards come in. They're designed specifically to help advanced amateur or professional photographers get the best performance from their high-end imaging devices and applications.

No matter how fast you work, the Elite Pro can keep pace with its ultra-fast transfer rates of up to 8 MB/sec. write performance and a read speed of 10 MB/sec. That kind of speed and up to 4-GB capacity means you can capture more continuous, high-resolution images in less time with the Elite Pro than with traditional CompactFlash memory cards. And when it's time to transfer your largest files, watch them fly – your production workflow will be more efficient than ever. Kingston's Type II PC card adapter or our CF readers (see optional accessories) can expand your capabilities further, allowing full use of a computer's USB or parallel ports.

When you purchase a Kingston® CompactFlash Elite Pro memory card, you're not just getting great flash memory performance. The Kingston name means you can count on our products to perform when it matters most. If you should ever have a question or concern, our technical service and support team is only a call away.

Optional Accessories

- **FCR-HS26/I** - 6 in I Hi-Speed 2.0 media reader
